

Social work for faculty members

Department of Physics

for the year 1440 AH

1- a. Sumaya Al-Essa explained the practical part of talented students for the summer period 2018.

2- The Dr. Sawsan Al-Sawaf explaining to Physica Club about the solar cells 12/12/2018.

3- The Physical Museum receives visitors under the supervision of Dr. Zainab Bugle on Sunday and Wednesday of every week during 2019.

4- The seventeenth intermediate visit to the Physical Museum and some physical laboratories under the supervision of Dr. Zainab Bugle, a. Hanan al-Shehri, a. Ibtisam Al-Haddadi, Prof. Amal Al Harbi. The names and opinions of female students are included in the committee file on 12/29/2018.

5- Workshop Dr. Zainab Bugle for the principles of designing electrical circuits in the seventeenth year on 12/26/2019 and a certificate of thanks was obtained from the school.

6- - Dr. Zainab Triumph arbitration of three scientific papers at the Nanotechnology Conference 2019, which will be held in Rome, Italy on 14-16 / 4/2019.

7- Dr. Zainab Bug is a member of the Scientific Committee at the Nanotechnology Conference held in Rome, Italy on 14-16 / 4/2019.

8- Dr. Zainab Bugab Attending an internal conference on future skills and development at Four Seasons Hotel on 26-28 / 12/2018.

9- Dr. Zainab Bugab attending the Conference on the Status of Women in Developed Societies at the Four Seasons Hotel on April 27 2019

10- Dr. Zainab Bugh delivered a high school workshop 26 entitled (Principles of Designing a Circuit

Electrophoresis) on 25/2/2019 and a shield and certificate of thanks and appreciation have been obtained.

11- Dr. Zainab Bugh delivered a high school workshop 26 entitled (the practical part of the principles of designing an electrical circuit) on 3/26/2019 and a certificate of thanks and appreciation was obtained.

12- Dr. Zainab Triumph lectures throughout the university's main chapel year, entitled Tajweed and Recitation Correction for 2019

13- Secondary school visits 26, intermediate 33 and intermediate children at King Salman Air Force Base for the Physical Museum and Physics Labs under the supervision of Dr. Zainab Trumpet Fatima Al-Saud, e. Torches torch, a. Mariam Al-Otaibi during the period from 11 / 2-5 / 3/2019.

14- Dr. Zainab Trumpet participated in the National Festival of Heritage and Culture on 20/1/2019.

15- Dr. Zainab trumpet supervision and participation d. Amani Al-Ubaidi participated in the activities of the International Day of Tree Plantation in cooperation with the Department of Botany, King Saud University on 2/13/2019.

16- Dr. Zainab Al-Tubal Supervising the effectiveness of reducing spinal cord injuries at the Faculty of Science, receiving a delegation from Prince Sultan Medical City on 14/2/2019.

17- Dr. Zainab Trumpet Participation and supervision, Fatima Al-Saud Participation of the Department of Physics at the World Health Day event at the College of Science in cooperation with the Department of Nutrition Sciences at the College of Agriculture and Nutrition d. Manal Al-Obaid on 20/3/2019.

18- Dr. Narges Banu giving an infrared spectroscopy lecture at the Physics Department on 10/21/2018.

19- Dr. Reem Al-Raddadi, Workshop on Principles of Units and Measures in Intermediate Physics 17 on 3/8/2019.

20- Dr. Reem Al-Raddadi Lecture entitled Development of units and scales in Physics, College of Science on 3/15/2019.

21- Dr. Samah Al-Bashir giving a lecture titled "Physical Photovoltaic Operations on Plants" at the Faculty of Science within the event of the International Day of Tree Plantation on 14/2/2019

22- Dr. Zahraa El-Fiqi, a lecture entitled Reducing Pollution and its Effects, Faculty of Science, within the event of the High Earth Day on 4/4/2019

23- Dr. Abeer Alshamry, a lecture entitled Raman spectroscopy, Faculty of Science on 28/4/2019

24- Dr. Zainab trumpet participation and supervision, d. Amani slaves, a. Fatima Al-Saud is a participant in the World Earth Day event in cooperation with the Ministry of Environment, Agriculture and Water, the Ministry of Meteorology and Environmental Protection, and the

Department of Chemistry, College of Science, King Saud University on 4/4/2019.

25- Dr. Amal Al-Aref Workshop entitled (Virtual physical laboratory) for eight weeks every Thursday from 2-12 plant 103 building 5 on 10 / 10-7 / 12/2019

26- A. Talal Sheba participated as an assistant and translator in the Japanese HIS Hajj campaign of 2018.

27- A. Sheba Talal's painting was the cover of the Magazine of Caravans of the Literary Club in Riyadh 12/25/2018

28- A. Talal Sheba participated with 12 paintings in the Salon of Disappointments held in a hall for new design in Riyadh. On 1-6 / 4/2019

29- A. Talal Sheba participates in completing the work of two paintings in the initiative held in the university's studio (The World is Art and Beauty) to finish the missing works and distribute them to the university's facilities. On 7 / 7-29 / 8/2019

30- A. Talal Sheba participates as a translated assistant for the Japanese Hajj campaign HIS. 2019

31- A. Talal Sheba participates with the university's studio in the effectiveness of introducing female students to university clubs and facilities by making a plaque directly in front of female students on 9/18/2019.

32- Dr. Abeer Al-Shammari Basics of Physics Tuesday every week for the second semester of 2019, from 10-11, Hall F003.

33- Dr. Reem Al-Raddadi, Fundamentals of Mathematics course, every Wednesday during the second semester of 2019, from 12-1, Hall F003.

34- Dr. Zahraa Al-Faki, Mechanics Day event, 3/28/2019, College of Science Lobby.
